About: I am a developer, designer and artist with over 10 years of experience building delightful experiences for a wide range of software products. Give me a creative problem and I'll find an elegant solution.

Professional Experience:

inbanx - Product Owner & Technical Project Manager 2024 - 2025

Enterprise budgeting and expense reporting tool

- Set and managed project initiatives, timelines and priorities
- Collaborated with designers to build and augment user experiences
- Interfaced with support to manage and prioritize bug tickets and customer support responses.

Touch To - Product Owner & Technical Project Manager 2023 - 2025

Technology Consulting and Dev Shop - Clients include: ReelGolf, inbanx & Ultra

- Collaborate with clients to design, develop and manage the core functionality of their apps
- Managing backlogs, writing tickets and engaging with stakeholders to hit key milestones
- Organizing and performing SCRUM rituals

Tradeblock - Senior Full-Stack Software Engineer 2022 - 2023

Sneaker Trading & Bartering Platform

- Worked with a team of 4 engineers to release all customer facing mobile app features
- Built an image processing pipeline to isolate, transform, and sync images to the product catalog
- Functioned as the primary point of contact for all Technical Support tickets from users and staff
- Maintained and updated Admin Portal described in the section below**
- Acted as design-engineering liaison, to communicate technical and design requirements to the respective teams

Etcetera - Founder - Designer & Engineer 2020 - Present

Creative Engineering and Design Studio

A studio of my own conception to bring more lateral thinking to the earlier stages of the design process for companies in the earlier stages of a product vision.

- The Miracle Foundation - Designed and built a dashboard to keep track of children, their parents, and all relevant fostering information, as they progressed through the foster system
- Tradeblock** - Designed, built, maintained, and updated an admin portal where employees could see real-time details of a trade, user, sneaker, or shipment
- ShareGro - integrated Interactive Brokers - a stock trading API

IBM - Lead User Experience Engineer 2015 - 2020

International Business Machines - Design Studio

Question, define, test, build, then scale. Through this iterative process my design team and I were able to deliver delightful, award winning experiences across the Hybrid Cloud Portfolio.

- Built complex graphical prototypes of dashboards to monitor Kubernetes resources
- Carefully considered accessibility standards across the product
- Attended an extensive Design Bootcamp focused on teaching the core tenants of Design Thinking

Education:

Galvanize (Formerly MakerSquare)

2015 - Advanced Software Engineering Immersive

Kalamazoo College

2012 - Major - Studio Art

Universidad San Francisco En Quito - 2011

Personal:

Climbing, Creative Coding, MTN Biking, Skateboarding, Mural Arts, Camping, Hiking, Rock Climbing, Tinkering

Jaws Skatepark - New Braunfels Tx.

- Fundraised \$500,000 for city skatepark.

Awards:

Gold A' Design Award - 2018

COMPUTEX d&i Specialty Award - 2018

Skinner Legacy Award - 2010 (named after me)

New Braunfels Hometown Hero - 2010
